## Our Story

Over the last 20 years Megasheds has become one of the UK's leading and most trusted garden buildings companies with a wealth of experience and knowledge in the industry.

We are proud to acknowledge that much of our trade is built around our reputation. Priding ourselves on customer service, we strongly recommend that you visit one of our 3 sales sites. Our experienced team will be able to work with you to create a garden room to your design and specification.

Our garden rooms are made to order, using the finest quality materials from sustainable sources. We strive to produce exceptional insulated garden rooms at the best possible price, whilst not compromising on service, choice, or quality. Our extensive selection of garden buildings and our flexibility gives you endless inspiration to design a garden buildings to suit your individual taste. Each garden room is handmade by skilled craftsmen and installed by our specialist installation teams nationwide.

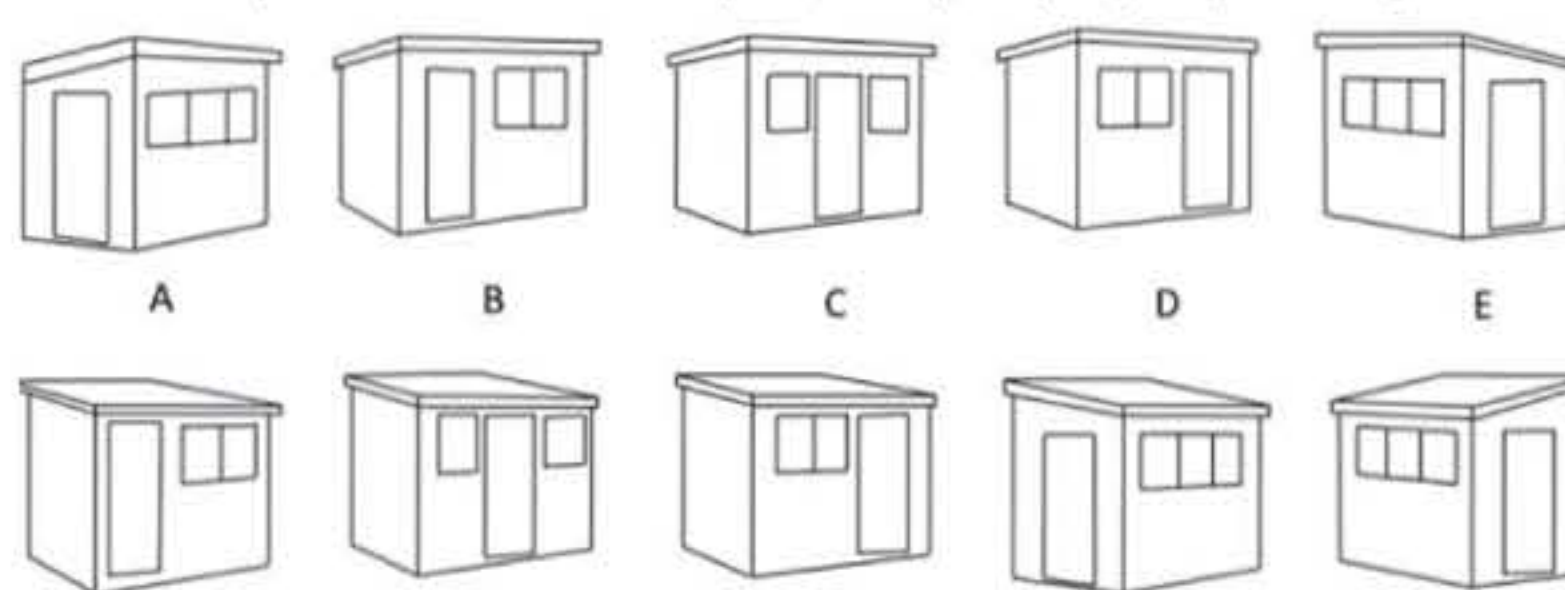

## Our Services

- Free Site Surveys & Planning Advice
- 3D CAD Designs
- Ground Works & Laying Bases
- Installing Garden Rooms
- Electrics & Data Cables

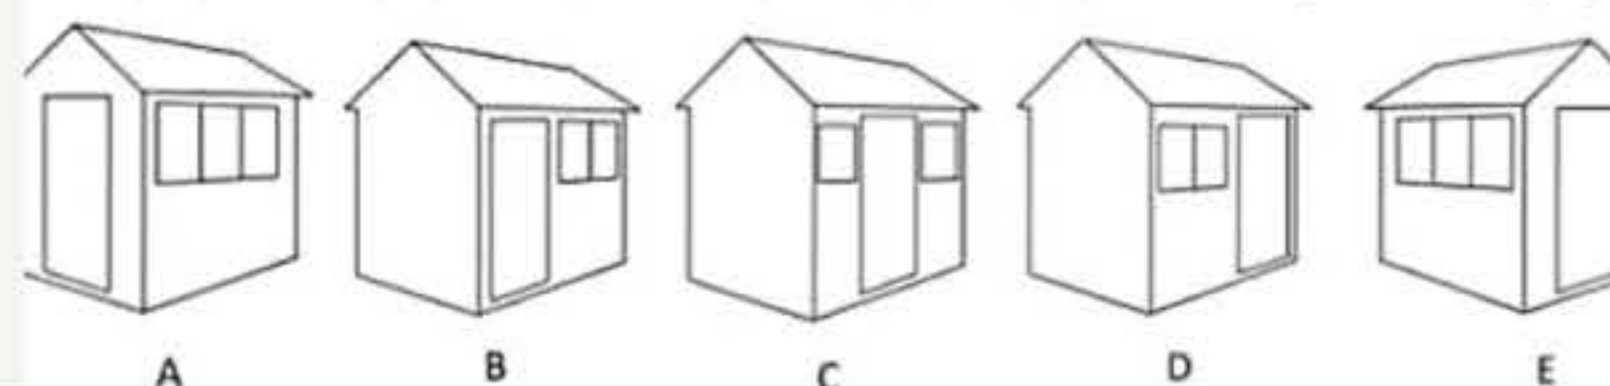

We have over the last 20 plus years constantly re-invested in modern machinery and vehicles to ensure that the whole process runs smoothly for both us as a business and you the customer.

### DOOR POSITIONS FOR PENT BUILDINGS

All 10 door positions are available on the supreme, security, heavy-duty and ryton buildings

### DOOR POSITION FOR ALL APEX BUILDINGS

## Base Options

Whether you're looking to buy a shed, garage or garden room, we have the perfect base for you. Our range of bases includes concrete, steel, and timber options, each with their own unique benefits. For those looking for a strong and durable option, our concrete bases are a popular choice. Alternatively, our steel bases offer versatility and longevity. Finally, our timber bases are eco-friendly. Whatever your requirements, we have a base that will meet your needs and exceed your expectations.

### Steel Base

- Can be relocated and adjusted
- Quick to install
- Potentially can accommodate heavier loads.
- Guaranteed for the life of your shed
- Cheaper than concrete.

### Concrete Base

- Supplies a sturdy and level base.
- Perfect for larger, heavier buildings.
- Requirement for garages.

### Wooden Base

- Cheaper
- Readily available
- Perfect for many buildings

## Timber Bearers

We recommend placing buildings on timber bearers. This is because keeping the wood away from direct contact with the ground can help to prevent rot and decay, which can compromise the structural integrity of the building over time. By lifting the building off the ground, the timber bearers create a gap that allows air to circulate beneath the floorboards, which helps to prevent moisture from accumulating and causing damage.

## Other Extras

- Rubber Roof
- Premium Extra Thick Felt

## The Value Range

The Value shed range is a great option for those who are looking for a budget-friendly outdoor storage solution. These sheds are designed to be affordable without sacrificing durability or functionality. The range includes a variety of sizes and styles to accommodate different needs and preferences.

## The Popular Range

The Popular Apex is ideal for garden storage and as a hobby shed. It comes in 5 different sizes with a variety of door positions. The number of windows is dependant on door position and building size. The Range is available dip treated or factory spray painted in a choice of over 18 colours. Fitting is an additional cost in the Popular Range.

## The Supreme Range

The multi-purpose Supreme Apex shed is by far our best-selling model. The Supreme Range has thicker framing than the Popular range and is higher to the eaves as well as featuring additional framing and diagonal supports. The redwood tongue and groove building is available in all sizes including customers own non-standard sizes. The range is available dip treated or factory spray painted in a choice of over 18 colours.

## The Denby

The Denby range of summerhouses are designed to allow the maximum amount of light to enter in order to create an open, airy feel ideal for summer get togethers. It features a pent-style sloping roof, large toughened glass windows to allow for maximum light, one side window with a top-opening section, galvanised ironmongery, a three-level lock and 4ft double doors which can be positioned offset if required. The Range is available dip treated or factory spray painted in a choice of over 18 colours.

## The Popular Summerhouse

The Popular Summerhouse is ideal for most gardens, it features joinery made windows, galvanised hinges and 6 different sizes all at an affordable price. This versatile summerhouse has multiple uses and will always enable you to create a relaxing backyard escape.

The Range is available dip treated or factory spray painted in a choice of over 18 colours. This building will also be fitted by our professional fitting teams. Also available are antique styled hinges and you can order a 2ft verandah for an additional cost.

## The Popular Cabin

The Popular Cabin has the styling of a summerhouse but the storage capability of a shed. It features winged sides along with a 2'6" door and two front facing windows.

The Range is available dip treated or factory spray painted in a choice of over 18 colours. This building will also be fitted by our professional fitting teams.

## The Popular Hobby

The Popular Hobby is an appealing garden building with 2 windows on the front, a 2'6" door and one window on each side. It is available in 3 different sizes and is ideal for storage purposes, while also uplifting the appearance of a garden. The Range is available dip treated or factory spray painted in a choice of over 18 colours. Fitting is an additional cost in the Popular Range.

## The Rangemore

The Rangemore corner summerhouse is designed to fit into any tight garden corner while still being contemporary in design with its full length toughened glass windows + doors made from toughened glass. It comes in three sizes. The Range is available dip treated or factory spray painted in a choice of over 18 colours. This building will also be fitted by our professional fitting teams. Also available to order and fitted by our fitters are an EDPM roof covering and heavy-duty flooring.

## The Colton

Similar to the Rangemore, the Colton offers more features such as half leaded windows, joinery made doors and two top opening windows as standard while also leaving room for personalisation. The Colton comes in sizes 6x6', 7x7' and 8x8'. The Range is available dip treated or factory spray painted in a choice of over 18 colours. This building will also be fitted by our professional fitting teams. Also available to order and fitted by our fitters are an EDPM roof covering and heavy-duty flooring.

Hampshire  
Greenhouse

## Greenhouses

Whether you're a seasoned gardener or just starting out, a greenhouse can be a great investment for your home or farm. With a little bit of planning and care, you can create the perfect environment for your plants to thrive and enjoy fresh produce all year round.

# Log Cabins

## Durable, High-Quality Log Cabins Built to Last.

Our log cabins are constructed from high-grade, slow-grown timber that ensures exceptional durability. We offer a range of single-door and double-door models, with various window styles to choose from. Our bespoke service allows us to modify any of our buildings to suit your specific requirements.

## Features

- Installation Service Available
- Unbeatable 20 Year Guarantee
- High Security 3-Lever Lock & Key Mechanism Included As Standard
- 19mm Thick Heavy Duty Tongue & Groove Flooring and Roofing
- Superior Quality Mineral Roofing Felt And Full Fixing Kit Included
- Half Glazed Double Doors
- Georgian-Style, Toughened Glass Glazing
- Superior Grade 28mm or 44mm Tongue & Groove Interlocking Logs

Log cabins are usually considered "permitted developments" and do not require planning permission if they meet certain conditions. For instance, if a log cabin is within 2 meters of your property's boundary, its overall height (including the roof) should not exceed 2.5 meters.

## Insulated Garden Rooms

## The Dalbury Canopy

## The Huntington Blended, Unique & Functional.

The Huntington nestles perfectly into a garden of any size or shape. The contemporary design utilises the space available whilst, adding a valuable dimension to your garden.
